MESSAGE FROM CHAIRMAN

It is our pleasure to present the financial performance of Royal Railway PLC (RRC) in the Q2 of 2023, following the requirements of the Securities and Exchange Regulator of Cambodia (SERC).

In the second quarter of the year, Cambodia's economic continue recovery which according to the Asian Development Bank (ADB), Cambodia's economy is forecast to grow at 5.5% in 2023 and 6.0% in 2024 on a more robust tourism recovery and higher growth in the services sector. The tourism sector is expected to grow 7.3% in 2023 before easing to 6.8% in 2024. Inflationary pressure is anticipated to moderate at an average rate of 3.0% in 2023 and 4.0% in 2024. Cambodia's economic outlook also hinges on the country's continuing efforts to scale up green investment to unlock long-term growth potential, says the report. Growth in exports of garments, footwear, and travel goods is projected to decelerate due to weak external demand in the United States and Europe, the main export destinations. The industrial sector, however, continues to benefit from policy reforms including the investment law 2021 which created a one-stop service for investors, and new trade agreements.

Amid the challenging business environment, RRC has played its essential part in contributing to sustainable economic development through continuing engaging the new clients for the freight service with very reasonable price to fit with the changed of the economic environment.

On financial performance side, as of quarter 2 of 2023, total asset was KHR 144,732 million, increase 314% compared to the same quarter of 2022. Total revenue was KHR13,391 million, increased 22.61% compared to the same quarter of 2022.

These results are fueled by the company's successful implementation of its sound business strategy by consistency and discipline on keep repeating until reaching the goal of the company.

The Board and shareholders have confidence that RRC's leadership, strategy and people will enable RRC to continue its high level of performance for all investors.

On behalf of the Board of Directors, I wish to thank RRC's management and staff for their hard work, dynamism and strong dedication to grow the business along with customer's growth in harmony. I also wish to thank the Board of Directors, shareholders, customers, the Royal Government of Cambodia and especially the Securities and Exchange Regulator of Cambodia (SERC) and Cambodia Securities Exchange (CSX) for their continuous support and advice.

7. FACTORS AND TRENDS ANALYSIS AFFECTING FINANCIAL CONDITIONS AND RESULTS

There is significant impact to financial conditions and results of RRC for the second quarter of 2023 due to the increasing on operating and administrative expense.

B. SIGNIFICANT FACTORS AFFECTING PROFIT

1. DEMAND AND SUPPLY CONDITIONS ANALYSIS

RRC is the only rail transport service provider in Cambodia, offering a wide range of commodities transportation across the country with safety and efficiency as railway is able to carry the products in large volume compared with road transport, fully secured by insurance and directly accessible into the Port of Sihanoukville.

RRC is continuously updating and expanding its line of products and services to meet the satisfaction of its customers. RRC is investing heavily in locomotive and railway improvement of freight and services to increase accessibility, convenience, ease of use, and to allow customers to trust in its services.

2. FLUCTUATIONS IN PRICES OF RAW MATERIALS ANALYSIS

RRC is a railway operator providing freight service transportation, therefore the analysis of fluctuations in prices of raw material is not applicable to the Company.

3. TAX ANALYSIS

RRC is obliged to pay taxes and excises to the state under the existing laws of Cambodia. RRC is a large taxpayer and is required to pay tax under the real regime tax system as set forth by the General Department of Taxation. Tax expenses include current tax and deferred tax. Tax expenses are recorded in the statement of comprehensive income.

4. EXCEPTIONAL AND EXTRAORDINARY ITEMS ANALYSIS

At the date of this report, management is not aware of any exceptional and extraordinary items, transaction or event of a material and unusual nature accruing that may significantly impact the financial statement of the Company.

C. MATERIAL CHANGES IN SALES AND REVENUE

In quarter 2 of 2023, RRC earned total revenue around KHR13,391 million, a slight increase of 22.61% compared to the same period prior year. Net loss around KHR5,928 million increase 24.79% compare to the same quarter at prior year.

D. IMPACT OF FOREIGN EXCHANGE, INTEREST RATES AND COMMODITY PRICES

1. FOREIGN EXCHANGE RISK

The Company is exposed to foreign exchange risk arising from purchases and transactions that are denominated in a currency other than the Company's functional currency, which is Khmer Riel.

The currency that gives rise to the foreign exchange risk to the Company is primarily United States of Dollar (USD) from borrowings and transactions with related parties and payment of operating expenses. The Company does not hedge its foreign currency exposure. To manage its foreign currency exposure, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary.

2. INTEREST RATE RISK

The Company does not account for any fixed-rate financial assets at fair value through profit or loss, and the Company does not have derivatives at the reporting date. Therefore, a change in interest rates at the end of reporting period would not affect profit or loss.

E. IMPACT OF INFLATION

- Inflation is very important for RRC because fuel is one of the main cost of services.
- Cambodia's economy is expected to grow around 6% in 2023.
- In the last 5 years record the CPI stood at an average year-on-year of 2.5% p.a.
- The economy is to a large extent dollarized; the exchange rate moves within a small bandwidth for the last ten years.
- In 2023 Cambodia's unemployment rate is projected to trend around 2%
- GDP of Cambodia for 2023 will increase to 5.5% and 6.0% in 2024 (ADB April 2023)
- Cambodia's inflation rates forecasted at 3% in 2023 and 4% in 2024 (ADO 2023)

F. ECONOMIC, FISCAL AND MONETARY POLICY OF ROYAL GOVERNMENT

- The RGC has planned to launch the post-COVID-19 Economic Recovery Plan 2021-2023 based on 3 approaches, survival, reform, and resilience. The plan focuses on high value-added manufacturing, agriculture, domestic production (SME), E-commerce, and tourism.
- Cambodia prioritised strengthening budget efficiency
- Reforms of tax administration, increasing additional revenue through the strengthening of tax policies
- Strengthening basic diversification of income collection to ensure sustainability in public finance and boost economic recovery
